Fruit Picker Instructions

Bargain Basement Model

- 1 Remove & recycle all packaging
- 2 Loosen fastener on Picker Basket
- 3 Slide pole into the narrow end of the Picker Basket; the screw part of the pole should be $\frac{1}{4}$ " - $\frac{1}{2}$ " below the bottom of the rounded basket.
- 4 Tighten the fastener
- 5 (optional)
Paint all of the spires that do not have curved pickers on the end of them - this will make it easier to see while picking fruit.

Total Assembly Time: 3-7 minutes

Geek Cred Model

- 1 Remove & recycle all packaging
- 2 Wrap grip tape around the top 3 inches of the most slender pole, giving the basket clamp a good place to hold onto.
- 3 Loosen the fastener on Picker Basket and slide the Basket onto the grip-tape part of the pole; now, tighten the fastener.
- 4 (optional)
Paint all of the spires that do not have curved pickers on the end of them - this will make it easier to see while picking fruit.

Total Assembly Time: 5-10 minutes
